Traffic Division Expands Its Community Education

Released: July 7, 2011
Case No: NA

The Beaverton Police Traffic Safety Team will be expanding its community education efforts. This new program will notify residents inside the radius of traffic complaints reported within their neighborhood.

Currently, when residential traffic complaints are received traffic officers are assigned to patrol the designated area(s). In an attempt to keep the community informed, a new approach has been developed to help bridge this gap.

The Beaverton Traffic Division will now be sending out an informational flyer to residents of a neighborhood that received a traffic complaint. The flyer will explain to home owners the violation reported and the subsequent upcoming enforcement.

If you are experiencing traffic issues in your neighborhood and you would like them addressed by the Traffic Division, you may register a complaint by going to the Beaverton Police Department website at www.beavertonpolice.org or call the Traffic Hotline at 503-350-4009.
